A15: major asphalt maintenance between Maasvlakte and Vaanplein

The asphalt on the A15 between Maasvlakte and Vaanplein needs to be replaced. There is an increasing risk of emergency repairs. This is why Rijkswaterstaat is replacing the asphalt in several sections until 2027. We work weekends and holidays. Regular maintenance will also continue during this period.

Traffic will be diverted during the closures and extra travel time should be expected which - depending on the section of the A15 closed - could be up to 30 minutes.

Below you will find when the A15 will be closed for major maintenance work between March and May 2026. Major maintenance will continue this year in September and October.

Diversions

Diversions are indicated by yellow signs.

Depending on which section of the road is closed, (through) traffic will be diverted via the A24 ([e-TOL](#)) or A4 and A20 or via the A15 and A16 or via the Botlekbrug (Botlek Bridge) or Botlektunnel (Botlek Tunnel).

Work in the Rotterdam region

Rijkswaterstaat will be busy in the coming years renewing and replacing existing roads, tunnels, bridges and viaducts, including in South Holland. These improvements will require a lot of work in the coming years. Unfortunately, this is not without disruption and inconvenience.

More information on the planning and work in the Rotterdam region can be found on the Rijkswaterstaat website: www.rws.nl/werkzaamhedenrotterdam
